3K

Total Claims

2K

Approved Claims

407

Denied Claims

74.0%

Approval Rate

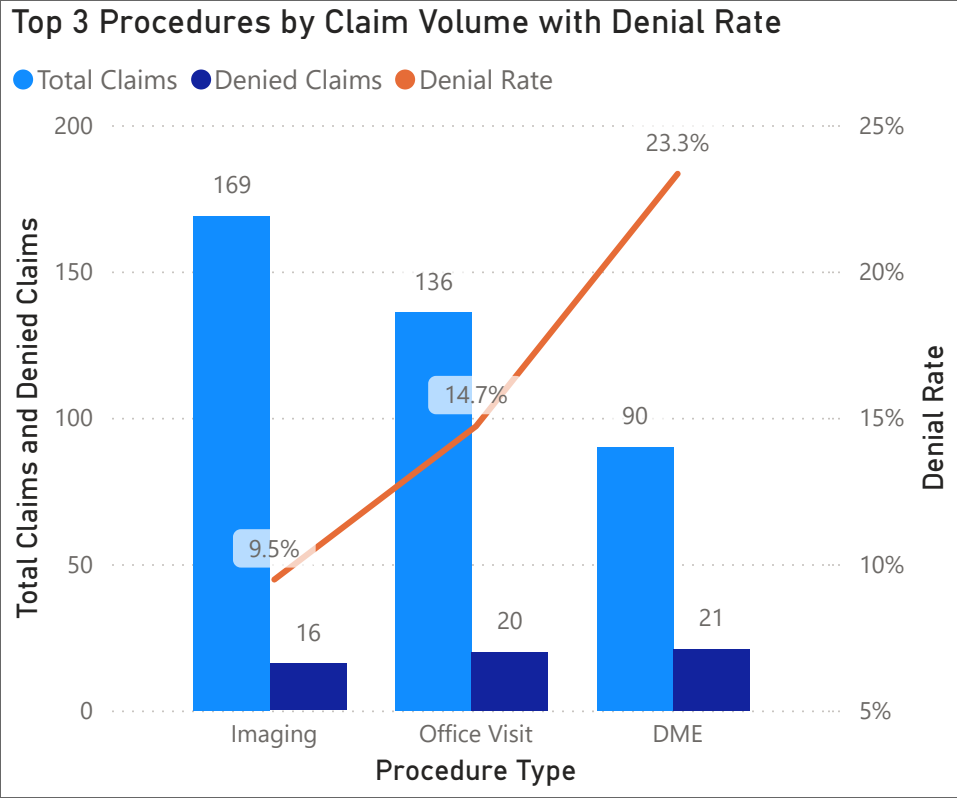

Key Insights

- ~74% approval rate reflects generally stable claim processing
- Denials are concentrated in select procedure categories
- Outcomes are driven more by procedure type than overall volume

Healthcare Claims Dashboard

Breakdown

January 1, 2025 – December 31, 2025

Payer Type

- Commercial
- Medicaid
- Medicare
- Medicare Advantage

Analyst Note

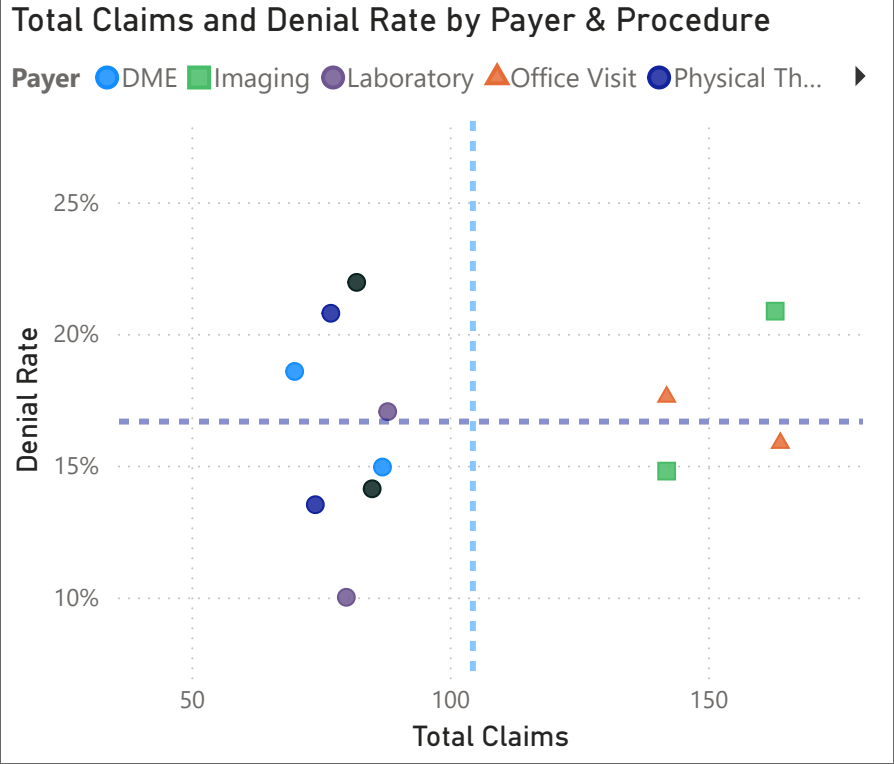

Commercial DME shows higher denial rates than other procedures in the current view, suggesting stricter authorization or documentation rules.

Potential next step: Check if this pattern is consistent across payers and review denial reasons.

Healthcare Claims Dashboard

Deep Dive

January 1, 2025 – December 31, 2025

Payer Type

- Commercial
- Medicaid
- Medicare
- Medicare Advantage

Aligned denial patterns

Medicare and Medicare Advantage show similar denial patterns for Office Visits and Imaging, suggesting shared underlying drivers and potential to address denials across both payer types through a unified approach.
